We are never tired of this creamy and tasty dish made to perfection. The risotto proves that Italian cuisine is not just pasta and pizza, but suggests us a large variety of dishes one tastier than the other. The risotto expresses a certain lifestyle, a certain philosophy, an art, a desire. I would say everything fits in the ability to control ones appetite: you should know that while the consumption of pasta relates to a pressing need to eat quickly, the risotto instead requires patience. Of course all this is a result of culture, lifestyle, history, and geography. There is often a mystery related to the origin of a dish. When it appeared? How and why was it created? What is definite is that the dish appeared long time before it became a classic and a star on our tables. At the beginning it was just rice. What the Venetians realized over the centuries is that rice always needs a support to be highlighted. Thanks to the natural binder - starch, which gives the rice the tough...
