Createspace, United States, 2014. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.With the ground breaking discovery of microwave background radiation, which gave significant evidence for the Big Bang, and the unearthing of some fossils which date back to millions of years before the era of Adam and Eve, many have reduced the once revered Holy Scriptures to mere products of antiquity. Today skeptics fail to take the Bible seriously when they read about sin having begun when the first couple ate a fruit - can the present pain and suffering of humanity be really attributed to the mere eating of an apple in Eden? And what could be the logical connection between the Original Sin and the subsequent redemption by the pure blood which was made through a birth which bypassed sexual intercourse? This writing explores the Genesis story of the beginning, the Original Sin and subsequent redemption through Christ's blood. To the believer the book is dedicated, but, if you happen to be an atheist who gets nauseated at any mention of the words God, angel, or Holy Spirit but are still curious to follow the exposition, it perhaps may help to regard the words as referring to extra-terrestrials.
