Excerpt from Corn (Maize) Viruses in the Continental United States and Canada: Ars 33-118; March 1968 In November of 1963, a meeting of investigators and administrators interested in the problem was held at State College, Miss. Informal reports from those present indicated that other States perhaps had the same or a similar condition in corn. Many investigators present were interested in organizing some type of cooperative effort to define and delimit the problem and in developing a means of centralizing and circulating information. The discussions also indicated a need to prepare and publish (1) a leaflet on corn stunt for general use, (2) a resume of corn stunt virus, and (3) About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
