BIO-INSPIRED OPTIMIZATION METHODS : MODELING, DESIGN, INVERSE PROBLEM AND ROBUST OPTIMIZATION OF A REPRESENTATIVE MECHANICAL SYSTEM

LAP Lambert Academic Publishing Dez 2015, 2015. Taschenbuch. Condition: Neu. This item is printed on demand - Print on Demand Neuware - In this book the development of multi-objective optimization strategies based on the bio-inspired optimization algorithms (Bees Colony Algorithm, Firefly Colony Algorithm and Fish Swarm Algorithm) in association with two particular operators, i.e., the Pareto Dominance Criterion and the Crowding Distance Operator is presented. The proposed methodology is applied to optimal design of a two degree-of-freedom nonlinear damped system...

Reviews

Complete guideline for publication fanatics. It is written in easy phrases rather than hard to understand. I am very happy to inform you that this is basically the finest pdf we have studied in my personal life and can be the finest pdf for at any time.

-- **Saul Mertz**

The publication is great and fantastic. It is packed with knowledge and wisdom. You will like how the article writer publishes this publication.
