Createspace, United States, 2012. Paperback. Book Condition: New. Revised, Expanded. 274 x 213 mm. Language: English . Brand New Book ***** Print on Demand *****.Daniel Salomon unveils a makeover of his earlier concept--- a proposed Master of Arts Program in Christian Environmental Studies which is full, in-residency, accredited, non-secular, Christocentric, and life-affirming. With refined syllabuses and readings, a more user-friendly format and a proposal for a faith-based school of the environment, Salomon incorporates new insights, new resources, new breakthroughs in the field and over five years of hard-won professional experience. Showing why existing programs are insufficient and getting beyond just trying to convert Christians to environmentalism, Christian Environmental Studies helps people, once they are on board with the Christian environmental bandwagon, steady the course. In an issue no more urgent, Salomon continues to talk to the Christian faith community about the need to harness, systematize, and structure their newfound ecological awareness toward creating green social structures in the Body of Christ. Focusing on the sector of Christian academia, Salomon makes the case why Christians need to channel their impetus for global environmental change towards the goal of actualization and realization making ecological commitments systemic and structural to Christianity. Salomon demonstrates why it is time now to take Christian environmentalism to the next level. It is time more than ever, especially since Christian environmentalism is more and more being adopted by theologians, pastors and even by some secular environmentalists,...
