## MULTICOMPONENT FLOW MODELING

Birkhauser. Paperback. Condition: New. 321 pages. Dimensions: 9.2in. x 6.1in. x 0.8in. The goal of this is book to give a detailed presentation of multicomponent flow models and to investigate the mathematical structure and properties of the resulting system of partial differential equations. These developments are also illustrated by simulating numerically a typical laminar flame. Our aim in the chapters is to treat the general situation of multicomponent flows, taking into account complex chemistry and detailed transport phenomena. In this...

## Reviews

---

*It is one of the most popular books. It really is filled with wisdom and knowledge. You may like how the author publishes this pdf.*  
-- **Kellie Huel**

*The best pdf I ever studied. We have gone through it and so I am confident that I will study again once again down the road. You are going to like the way the blogger composed this pdf.*
