The Ilium Press, United States, 2016. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.It's 2067. The Antarctic ice sheets have collapsed. World sea levels have risen several feet and are rising faster still. The climate has changed catastrophically, and meteorological disasters are becoming a daily occurrence. Yet global power structures fail to respond, remaining frozen in political and ideological gridlock. To confront this chaos, billionaire Noah Blazo recruits a team of genius misfits to bypass the political paralysis. With support from a coalition of island and coastal nations that are vulnerable to these catastrophes, his team launches an unsanctioned geo-engineering effort to restore the Earth's ecological balance--an activity that prompts a global power struggle immediately leading to war. Events in the center of this conflict inadvertently trigger the emergence a quasi-divine being, Kalodendron, who dwells within the Internet. With her arrival comes a further threat to the Earth--the appearance of the dark star Wormwood, which looms within our solar system and is drawing closer. With Kalodendron's help, can Blazo's team avert this two-fold threat the Earth's destruction? Or do the tragedies that quickly follow ensure the planet's final destruction? Apocalypse features a rich cast of fully realized characters, including the old Texan, Noah Blazo, a beneficent Captain Ahab with his own secret grief; Anneliese Grotius, the internet genius who is also the curator of the Amsterdam Museum's Flemish collection; big gloomy Ala Ifu-Eshu, who has dealt with her Boko Haram husband and becomes a leader in the art of seawater farming; the mathematicians Chandrasekhar Engineer and his son Gopal; the British naval maverick Peter Frobisher; the two popes, Pius XIII and Francis III; and the troubled narrator, Nemo, who has been commissioned by Noah to compose the...
